

DEMAND MORE FROM YOUR DEVELOPMENT. CHOOSE A TEAM WITH THE EXPERTISE TO **MAKE IT HAPPEN.**

5 QUESTIONS TO DETERMINE IF YOUR DEV IS HOLDING YOU BACK:

Do you feel weighed down by antiquated, disconnected systems and technology?

Are you struggling with a lack of access to the correct data needed to make informed decisions?

Do you have enough resources on your development team to check-off everything on your to-do list?

Is there a need for additional technical expertise to tackle difficult initiatives?

Is your dev team being overwhelmed with the need to stay relevant and create a competitive advantage?

ALL OF THESE THINGS?

If you've answered 'yes' to one (or more) of the questions above, don't panic! That's traditionally the case—and why we're here to help.

A TEAM OF EXPERTS OPERATING AS AN EXTENSION OF YOURS.

ACCELERATE TO A BETTER MEMBER INTERACTION AND EXPERIENCE.

With CFM, you have access to industry experts, innovators, disruptors, engineers and leaders—all fully dedicated to applying horsepower to your project and the path to achieving it.

By leveraging our expertise in your areas of opportunity, we simply become an extension of your team to move the needle and get stuff done.

Example project types include:

- Data extraction for reporting
- Hardware integration
- Systems integration
- SymConnect project conversion to SymXchange

WE HAVE EXPERTISE IN...

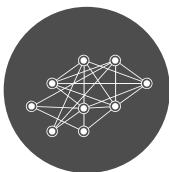

HARDWARE INTEGRATION

(Automation, Kiosks, Teller Peripherals, etc.)
