# DBSI+CFM | NEXT™

BUILT BY DBSI | POWERED BY CFM

## SELF-SERVICE | ASSISTED-SERVICE | FULL-SERVICE

# STOP HIGH-COST TRANSACTIONS

In-branch transactions are expensive. How can you shift more costly transactions to self-service while still delivering a personal experience? With NEXT™.

NEXT is an uncompromising vision of high-touch self-service for today's branch. Not just a glorified ATM with a new surround, but a completely different approach to banking. It's designed with the flexibility for both clients and tellers to drive transactions, truly combining self-service, assisted-service, and full-service into one kiosk.

Fully core-integrated, NEXT automates low-value transactions while allowing associates to work simultaneously on advisory conversations, engagement, and client assistance all within a savvy tablet interface.

## NEXT IN ACTION

- **COST SAVINGS:** 75% of one associate's time spent on transactions can be shifted to NEXT

- **IMPROVED SERVICE:** Associates can focus on advisory conversations instead of low-value transactions

- **OPTIMIZE PRODUCTIVITY:** Reduce the need for part-time scheduling adjustments to accommodate busier days in the branch

## NEXT™
### TABLET INTERFACE

- Receive real-time activity notifications
- Handle overrides and approvals
- Take over transactions to assist clients "hip to hip"'
- Manage kiosk maintenance and troubleshooting
- Available in a web app for full portability

Whether you choose NEXT or NEXT2, both are more powerful than anything that's come before.
Self-Service, Assisted-Service, Full-Service in one solution. **In a word, brilliant.**
