

VISIBILITY IS KNOWLEDGE. KNOWLEDGE IS POWER.

Making blind investments on cash recyclers and dispensers can be costly. Make smarter decisions on purchasing, deploying, and optimizing your entire cash automation fleet with iQ, a business intelligence tool that provides visibility into how your machines are being used day-to-day.

Do you have too many machines or not enough?
Should you buy a recycler or a dispenser?
Are staff properly trained on the machines?
Do you know when it's time to call service?

IS THE MACHINE EVEN ON?

GAIN VISIBILITY INTO YOUR HARDWARE WITH **iQ**.

MAKE SMARTER DECISIONS WITH REAL-TIME DATA & ANALYTICS

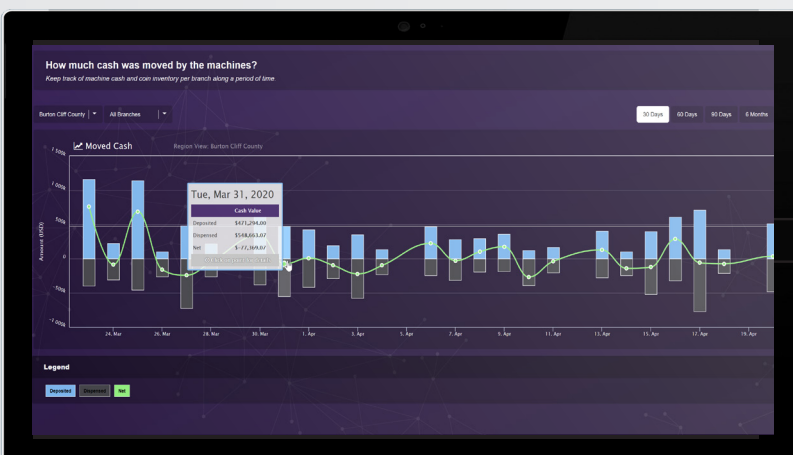

DEVICE HEALTH

Receive device recommendations based on statistical use to properly purchase, deploy, and maintain a healthy fleet of cash dispensers and recyclers.

TELLER DATA

Understand and identify which tellers may need more training for effectively operating the machines, and receive recommendations on how to optimize your hardware.

CASH FORECASTING

Find out how much cash you need in your machines based on actual data—never over order or run out of cash again.
